

## BINOD ACHARYA

---

CONTACT INFORMATION	Vickie and Jack Farber Research Center Wills Eye Hospital 840 Walnut St, Suite 1538, Philadelphia, PA 19107 USA	Phone: (225)456-6324 Email: <a href="mailto:bacharya@willseye.org">bacharya@willseye.org</a> <a href="https://binod-acharya.github.io">https://binod-acharya.github.io</a>
RESEARCH INTERESTS	Health disparities; Social epidemiology; Spatial statistics; Statistical modeling	
EDUCATION	M.S., Biostatistics Drexel University	2019 Philadelphia, PA
	M.S., Entomology (Minor: Applied Statistics) Louisiana State University	2017 Baton Rouge, LA
	B.Sc., Agriculture (Major: Agricultural Economics) Tribhuvan University	2011 Kritipur, Nepal
PROFESSIONAL EXPERIENCE	<p><b>Data Scientist/Biostatistician</b>, Wills Eye Hospital, Philadelphia, Aug 2023 - Present</p> <ul style="list-style-type: none"><li>• Provide statistical and data science expertise for diverse clinical and public health research projects at the <a href="#">Vickie and Jack Farber Vision Research Center</a>.</li><li>• Collaborate with clinical investigators to:<ul style="list-style-type: none"><li>– Refine research objectives and formulate hypotheses.</li><li>– Design studies, develop algorithms, and perform statistical analyses</li><li>– Generate report, prepare manuscripts, participate in grant applications</li></ul></li><li>• Support the Biostatistics Consulting Core by providing consultation on study design and statistical analyses for clinical researchers.</li><li>• Current projects include:<ul style="list-style-type: none"><li>– Estimating failure rates of corneal cross-linking in keratoconus patients.</li><li>– Examining disparities in treatment initiation for neovascular AMD.</li><li>– Investigating the relationship between sickle cell traits and glaucoma.</li><li>– Understanding bilateral sequential blindness after glaucoma diagnosis.</li><li>– Neural network models in predicting glaucoma progression using clinical and visual field data.</li><li>– Exploring the relationship between discrimination in medical settings and visit adherence among patients with diabetes.</li></ul></li></ul> <p><b>Data Analyst</b>, Drexel University, Philadelphia Apr 2019 - July 2023</p> <ul style="list-style-type: none"><li>• Provided statistical expertise for research projects applying advanced methods, including Bayesian inference, survival, multilevel and generalized linear models.</li><li>• Contributed to the <a href="#">SALURBAL</a> project, focusing on urban health disparities in Latin America using small-area estimation.</li><li>• Conducted social-epidemiological research on eviction, informal settlements, homelessness, and residential segregation.</li><li>• Researched pandemic-driven health and behavioral disruptions, such as telehealth utilization, spending on food and alcohol, and vaccine lottery effectiveness.</li><li>• Analyzed and developed visualizations for the 2019 project Reducing Cancer and Improving Health Outcomes in Philadelphia Neighborhoods.</li></ul>	

**Research Assistant**, Drexel University Oct 2017 - Mar 2019  
 Managed and cleaned datasets (surveys, censuses, vital statistics, spatial) and supported manuscripts involving multilevel and spatial analysis using SAS, R, and ArcGIS.

**Research Assistant**, Louisiana State University Jan 2015 - May 2017  
 Designed and conducted a laboratory research to identify the genetic basis of Bt protein resistance in fall armyworm and provided assistance in field research.

**Program Associate**, World Wildlife Fund Inc, Nepal Jun 2014 - Dec 2014  
 Provided technical support to community leaders to protect ecologically fragile hills of Nepal by improved agricultural and livestock management practices.

**Technical Officer**, National Tea & Coffee Development Board, Nepal Apr 2012 - Jun 2014  
 Provided technical support to stakeholders for improved coffee farming
